OBJECTIVE

Detail-oriented and enthusiastic web developer with a strong foundation in programming and data structures. Seeking a position where I can leverage my skills in frontend development and contribute to impactful projects. Passionate about creating responsive and visually appealing web applications and eager to apply my knowledge in a dynamic work environment.

EDUCATION

Bachelor of Engineering in Information Science & Engineering 2022 - 2026
The National Institute of Engineering, Mysore.
CGPA : 8.97

SKILLS

Technical Skills	C, C++, Python, Java, HTML, CSS, MySQL
Tools/Platforms	Git, GitHub
Coursework	Data Structures, Analysis and Design of Algorithms, Operating System Database Management System
Professional Skills	Teamwork, Attention to Detail

CODING PROFILES

LeetCode	[Link]
Coding Ninjas	[Link]

PROJECTS

Vybe - Movie Recommendation System [Github] [Live Link]

Collaborated on database management using MySQL to design and implement efficient data storage and retrieval solutions, ensuring seamless integration with the application's backend.

· Developed dynamic user interfaces using React with JavaScript for real-time updates.
· Implemented user authentication and authorization with Java, ensuring secure access and data protection.
· Built scalable web applications with HTML and CSS to create responsive and user-friendly designs.
· Engineered database interactions with MySQL to manage and retrieve data.

Super Market Billing System [Github]

· Developed a console-based Supermarket Billing System using C++, demonstrating expertise in object-oriented design.
· Implemented features for customer registration, login authentication, and item management.
· Utilized file handling for secure storage of customer details and login credentials.
· Integrated functionality for adding items to bills, generating invoices, and calculating total amounts with ease.
· Ensured a user-friendly interface, incorporating error handling for smooth and seamless operation.

ACHIEVEMENTS & CERTIFICATIONS

· Solved over 350+ DSA problems on platforms including LeetCode and Coding Ninjas.
· Algorithms, Data Collection, and Starting to Code [Link]
